To whom it may concern

06.07.2021

Dear Sir/Madam,

It is my pleasure to strongly recommend Mr Can Wang for your PhD position.

I know Mr. Wang as he did his MSc in Data Science at Coventry University for 2 years where I taught two modules . He also discussed with me the possibility of spending a summer working in some of my projects.

The level of effort put by Mr. Wang in this MSc course is typical of a good engineering student who joins this course, so I supported him very much. He has put in extra hours as necessary in order to meet specific deadlines and improve his skills. During the modules I have taught, Mr. Wang demonstrated a good work ethic and interpersonal skills as well, and he has pleasant personality.

He also showed great interest in pursuing a PhD and I believe he has good research skills.

Please take his financial background and personal condition into consideration .Hence, I warmly recommend Mr. Can Wang for your PhD position. If I could assist you more in this matter, please do not hesitate to contact me.

Sincerely Yours,

Vasile Palade
